EXECUTIVE SUMMARY

Electronics and Communication Engineering graduate with hands-on experience in software development, embedded systems, IoT, and data analysis. Skilled in Python, C/C++, MySQL, Arduino, Excel, and Power BI with practical experience through academic projects and internships. Passionate about developing innovative hardware-software solutions and eager to contribute to software development, embedded systems, AI, or data analytics roles.

EDUCATION

BANGALORE COLLEGE OF ENGINEERING AND TECHNOLOGY

Bengaluru, Karnataka

B.E in ELECTRONICS AND COMMUNICATION ENGINEERING

CGPA : 8.6/10(all 8 semesters) [VTU :- 2022-2026]

PROJECTS

Train Track Defect Detection System Using 8051 Microcontroller

- Technologies: Embedded Systems, 8051 Microcontroller, Sensors, IoT.
- The objective is to detect cracks or defects on railway tracks to improve safety and prevent accidents. The system scans tracks, processes sensor data, and provides immediate alerts, offering an automated and cost-effective monitoring solution.

Heart Disease Detection using Image Processing

- Technologies: Python, OpenCV, Image Processing, Machine Learning
- The project aims to enable early diagnosis and assist healthcare professionals in improving patient care and treatment decisions. Python-based system that applies image processing techniques to detect heart disease from medical images.

AI Interview and Resume Analyzer

- Technologies: Python, NLP, Machine Learning, Streamlit, ngrok.
- Developed an AI-powered application to analyze resumes and conduct mock interview assessments. Implemented resume parsing and keyword matching based on job descriptions. Improved candidate evaluation efficiency through automation and intelligent scoring.

TECHNICAL SKILLS

Programming & Scripting: Python, C, C++, Embedded c

Embedded Systems & IoT: 8051 Microcontroller, Sensors, IoT, Arduino, Microcontrollers, Microprocessors

Data Analysis & Tools: MySQL, Excel, Power BI, Git, ngrok, VS code.

Machine Learning & AI: Machine Learning, Image Processing, OpenCV, NLP, Streamlit.

Operating Systems : Linux, Operating System Fundamentals, Memory Management, Data Structures.

Networking: TCP/IP Fundamentals, Ethernet Basics.

Architectures: ARM architecture, x86 architecture.

INTERNSHIPS & CERTIFICATIONS

Internship:

1. Embedded system

from **LearnNex** (Powered by **Wipro DICE ID**)

2.Data Analysis with Python

from **Besant technologies** ,Bangalore.

Workshop on Embedded system and IOT:

Hands on microcontrollers , microprocessors, sensors . Built projects on real time sensing and control systems. Also integration of IOT by connecting to internet .

NPTEL Courses:

1.Digital Electronics

2. Introduction of Internet of Things

3. Ethical Hacking

LANGUAGES

1.English (fluent)

2.Kannada(native)

3. Telugu(native)

4. Tamil(fluent)

5. Hindi(beginner)
